

Machine Master & Wire Wizard—Production Technician

You get incredible things done. And, you can do it in only 4 days! That's right, you only work 4 days a week (10 hours per day), and you get to work with specialized machines and robots.

We look to you, our "Production Technician," to produce steel wire workpieces to exact specifications. It's demanding, but you will have the skills to run the machine, observe operations, inspect parts, and communicate with a dedicated team.

We're growing, and you can grow with us! WireTech Fabricators is a leading supplier of custom fabricated wire products for many different industries. We have a great working environment, a supportive leadership team, and we've recently increased our hourly wage for starting associates to \$13/hour. If you're skilled, we start higher. NOW is your time to take advantage of:

- 4-day work weeks, meaning 3-day weekends with friends and family
 - OT may be required based on work load
- Competitive benefits package including medical, dental, vision, paid holidays, paid vacation, 401k, and no co-pay urgent care
- Wage increase at 90 days, and opportunity to increase even higher—potentially up to 30% after 1 year
- Bonus incentives, including sign-on bonus
- On-site training programs
- Opportunity to grow within the company

What we need you to DO

- Be ready to learn; no prior experience is necessary; we provide onsite training
- Start machine, engage feed, and observe operations
- Inspect wire parts visually to verify conformance to specifications
- Tend machine and equipment, perform required maintenance on the equipment prior to operating

What we like about YOU

- You are a problem-solver, quickly identifying and resolving challenges, either solo or in a group setting
- You have technical skills and want to pursue training and development opportunities to grow a long-term career
- You show initiative, volunteering readily and undertaking self-development activities
- You monitor your own quality, and you look for ways to improve and promote quality
- You care about safety and security, using equipment and materials properly and reporting potentially unsafe conditions
- BONUS! You have knowledge of Work Wise Manufacturing software (we can train, too!)
- You have a high school diploma or general education degree (GED), OR 1 to 3 months of related experience
- You are physically able to stand, walk, and sit, occasionally lift and/or move up to 50 pounds

While performing job duties, you are regularly exposed to moving mechanical parts, and you are occasionally exposed to vibration. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Who we ARE

For over 65 years, WireTech Fabricators been committed to continuous improvement through the utilization of best practices, workforce empowerment, and the newest technology (did we mention we have robots?)

What drives us? Honesty, integrity, dedication, and desire. We live by our company values of communication, creativity, and credibility to provide high-quality engineered products and services.

WireTech Fabricators is an Equal Opportunity Employer
